

Coffee Partnership Proposal

For Riverside Cafe

Dear Jennifer,

Your friend at the bakery in Arvada wasn't wrong - we take freshness seriously, and it sounds like your customers deserve better than what Sysco is giving them. With 150 covers on weekdays and 200+ on weekends, your brunch crowd is exactly the kind of audience that notices when the coffee gets an upgrade.

It was great hearing about your setup, and I'm excited about the possibility of working together.

About Mountain Pine Coffee Roasters

I'm Marcus Rivera, founder of Mountain Pine Coffee Roasters. We're a small-batch roastery right here in Pine Ridge, about 30 minutes from the Highlands. I started this company because I was tired of seeing cafes served by roasters who treated them like account numbers. You deserve better than that.

What makes us different:

- **Freshness:** We roast Monday, Wednesday, and Friday - and deliver within 48 hours
- **Personal service:** I visit every wholesale partner monthly to make sure things are dialed in
- **Flexibility:** We adjust roast profiles based on your feedback, not ours

My Recommendation for Riverside Cafe

You need a workhorse drip coffee that keeps the brunch crowd happy, espresso that your baristas can pull consistently on the La Marzocco, and a cold brew that stands on its own.

Based on your setup, I'd recommend starting with **Summit Blend for your drip and espresso, plus Morning Trail for cold brew**. Here's why this will work for your customers:

- **Summit Blend** has chocolate and caramel notes that pair perfectly with breakfast and brunch menus - it's our most popular for a reason. It's also forgiving on both your Fetco batch brewer and the La Marzocco, so your baristas won't fight with it
- **Morning Trail** is bright and fruity - exactly what makes a cold brew stand out. Your customers will taste the difference from day one
- Both are smooth enough that the people on their third cup at 11am are still enjoying it

Pricing

For your estimated volume of **20-25 lbs/week**, you'd be at our competitive pricing:

Product	Price
Summit Blend (drip and espresso)	\$9.50/lb
Morning Trail (cold brew)	\$9.50/lb

Free delivery included for Denver - and yes, we can absolutely do **twice a week**. That's easy for us since we roast three days a week and you're right in our Zone A delivery area. No minimums. Net 15 terms.

That's straightforward pricing with no hidden fees.

Barista Support

You asked about help dialing in the espresso - that's one of my favorite parts of the job. Here's what I do with every new partner:

- **Initial setup:** I'll come in and dial in the Summit Blend on your La Marzocco myself, and walk your baristas through the profile
- **Monthly check-ins:** I stop by every month to make sure everything is tasting right and adjust if needed
- **Ongoing support:** If something's off between visits, call me and I'll come by

This is included. It's not an add-on. It's just how we work.

Getting Started

Here's what I'd like to do:

1. **This week:** I'll drop off a free 3 lb sample pack - one of each blend, no commitment
2. **Next week:** You and your team try it out on the Fetco and the La Marzocco
3. **When you're ready:** We set up twice-weekly delivery on your schedule

No contracts. No minimums. If it's not working, we part as friends.

Let's Talk

I'd love to stop by this week with samples. Does Thursday or Friday morning work for you?

Looking forward to it,

Marcus Rivera Founder, Mountain Pine Coffee Roasters (303) 555-7832
